

Canvas LTI Advantage Set Up Directions For Peerceptiv

Description: These instructions will configure Peerceptiv for connection as an LTI Advantage tool available for use in Canvas assignments and courses. Steps 1-4 and the Group Sync instructions on page 4 must be completed by a canvas admin with permissions to manage developer keys. Further steps can be completed by instructors if they have the ability to add registered apps into their own courses.

Process:

1. As a canvas admin navigate to Admin > Developer Keys

2. On the developer keys page, under the account tab select +Developer Key > + LTI Key

Jeveloper Keys									
Account	Inherited								
							+ Developer Key		
Name		Owner Email	Details	Stats	Туре	State	+ API Key		
	Peerceptiv Example	jhalloran@peerceptiv.com	10545000000000147 Show Key	Access Token Count: 0 Created: Aug 1 at 10:12pm Last Used: Never	ţ	ON	+ LTI Key		

- 3. On the create a new LTI Key Page enter the following information
 - Key Name: Peerceptiv

.

17

- Owner Email: <u>support@peerceptiv.com</u>
- Redirect URI(s) (note copy and paste all 5 urls separated by spaces. It will not work if comma delimited): <u>https://go.peerceptiv.com/LtiLaunch</u> <u>https://api.peerceptiv.com/lti/launch</u> <u>https://app.peerceptiv.com/lti/launch</u>

Panther Learning Systems Inc. | www.peerceptiv.com | support@peerceptiv.com

https://api.peerceptiv.com/lti/launch/course https://api.peerceptiv.com/lti/launch/assignment

- Notes (Optional): Peerceptiv
- Configure Method: Enter URL
- JSON URL: https://api.peerceptiv.com/canvas_advantage_beta_config.json
- Click Save

4. After saving the new key, on the developer keys dashboard

Key Settings	
Key Name: Peerceptiv	Configure
Owner Email: support@peerceptiv.com	
Redirect URIs:	https://api.peerceptiv.com/canvas_advantage_beta_config.json
https://go.peerceptiv.com/LtiLaunch https://api.peerceptiv.com/lti/launch https://app.peerceptiv.com/lti/launch	
Notes:	100
Peerceptiv Spring 2022 Beta Test	

• Set the Key State to "ON" if it is "OFF" by default

 Record the newly generated Client ID and provide said Client ID as well as the canvas installation URL to Peerceptiv Support (email: support@peerceptiv.com).

Name	Owner Email	Details	Stats	Туре	State	Actions
Peerceptiv Example	support@peerceptiv.com	10545000000000147 Show Key	Access Token Count: 0 Created: Aug 1 at 10:12pm Last Used: Never	\$	ON OFF	▲

The Canvas Administrator MUST send the Client ID and the Canvas installation URL to <u>support@peerceptiv.com</u> or the course configuration will not work. If you are configuring Group Sync as well (recommended - see page 4 of this document), you can send us all of the information at one time.

C Peerceptiv[®]

At this point Peerceptiv is added into the course and there are various options for integrating it more fully, including adding Group Sync below.

Adding Peerceptiv Group Sync to Canvas:

In order to enable Peerceptiv group sync, a canvas admin should take the following actions:

- 1. Visit the "Developer Keys" page available to Canvas admins in the admin section
- 2. Scroll to "Add Developer Key > API Key" on the developer keys page to add a new key
- 3. Use the following settings to create a new developer key for Peerceptiv (other than the logo and redirect URL, end users may substitute values as desired):
 - a. Key Name: Peerceptiv
 - b. Owner Email: support@peerceptiv.com
 - c. Redirect URIs: https://api.peerceptiv.com/oauth/return/canvas
 - d. Redirect URI (Legacy): leave this empty
 - e. Vendor Code (LTI 2): leave this empty
 - f. Icon URL: https://api.peerceptiv.com/favicon.ico
 - g. Notes: Any necessary notes can be added here, left up to the end user
 - h. Test Cluster Only: unchecked
 - i. Client Credentials Audience: Canvas
 - **j.** Enforce Scopes: <u>See List of Scopes Here</u>. Alternatively, both enforce scopes off and the Read Only global scope option will function correctly.

The admin that configures the new developer key will then need to provide Peerceptiv with the generated **ID/Key pair**.

What Peerceptiv Needs After Registering the Tool:

ID:

Key:
